

# LCT SPW 390

Easy cleanliness for large parts

## LCT SPW 390

A flexible and modular system

- ▶ Suited for big work pieces, with grid on the working platform
- ▶ Can be ordered in prefab sizes (1.2-m steps), with a feed pump for the cleaner
- ▶ With integrated drip tray in compliance with WHG (Water Resources Act) with leakage control, tank with lid
- ▶ Integrated flow nozzle with washing brush

	LCT SPW 390
Overall dimensions L x W x H (mm)	Standard 2725 x 1505 x 390 variable working surface; can be extended in 1200-mm steps
Useful work surface L x W (mm)	variable
Material	PE-HD
Payload	1000 kg
Useful volume min./max.	250 L / 350 L
Total useful volume	355 L
Working pressure	0.2 bar
Weight	250 kg
pH-value working range	4.5–12
Rated input voltage	230 V / 1.3 A / 50 Hz
Power input	330 W
Operating temperature	Ambient temperature
Operating pressure max.	2 bar
IP protection class	68

The **LCT SPW 390** can be extended in depth and/or width in 1200-mm steps.
